

Les Américains font la nique au procureur Weil : "les assassins obéissent au Coran" disponible en anglais !

écrit par Christine Tasin | 14 octobre 2017

Assassins Obey The Quran

by Christine Tasin and Rene d'Armor

Publisher: Christine Tasin

Product Description: ASSASSINS OBEY THE QURAN
Christine Tasin & René d'Armor

Since September 11, 2001, now a sad memory, how many attacks and attempted attacks can be counted on United States soil? The most notable are the Fort Hood massacre on November 5, 2009, the Boston marathon bombing on April 15, 2013, the San Bernardino massacre on December 2, 2015, and the Orlando nightclub massacre on June 12, 2016. Are Americans still safe in their own homes? Should they know the fate of the Lebanese and Israelis?

The authors of this little book believe that there is no such thing as fate, that there are ways to fight terrorism and that the first priority is to understand the relationship between terrorism and Quranic texts. As long as mosques are open where faithful are called to murder, how can our laws, our constitution, serve us? As long as a government does not dare to ban the veil in the public sphere, women will be subjected to aggression and even rape to compel them, Muslim or not, to follow the Islamic precepts.

Relayé sur de très nombreux sites anglophones comme

- 24Symbols
- Apple Ibooks
- Barnes&Nobles
- Inktera
- Kobo
- Overdrive
- Palyster
- Scribd
- Tolino

Et le livre imprimé va sortir sous peu lui aussi dans tous les pays anglophones.

Le vice-procureur Weil peut bien me traîner au tribunal, il ne pourra pas empêcher que la vérité sur l'islam soit connue, en France et à l'étranger.
